

Laminated Glass Cutter

NEW PRODUCT

The Ripper™ has been engineered specifically for vehicle glass management. The Ripper™ is an all-in-one solution for Fire Fighters, First Responders, Paramedics and Law Enforcement. It uses common cordless impact drivers, non-proprietary batteries, and features a high-speed cutting blade that can both pierce and cut any laminated vehicle glass.

Why Buy The Ripper™ for Your Department?

- Fast, durable and reliable
- Laminated glass piercing tip
- 360° swivel for left or right hand operation
- Choices - interfaces with popular models of impact drivers
- No proprietary batteries
- Lower cost
- 3-year limited warranty
- Does not look like a firearm

NEW! **THE RIPPER™**

Laminated Glass Cutter

17 Million New Vehicles per Year with Laminated Glass Side Windows!

FMVSS 226 established requirements to reduce the likelihood of complete and partial ejections of vehicle occupants through side windows during rollovers or side impact events. The standard applies to passenger cars, multipurpose vehicles, trucks and buses with a GVWR of 4,536 kg or less. Effective September 1, 2018 all vehicles sold in the United States are required to have laminated side window glass. Laminated glass cannot be punched or shattered, it must be cut. The Ripper™ cuts both windshields and side window laminated glass for swift and safe patient extrication.
