

The Junior™

**DESIGNED
TO HELP
YOU SAVE
LIVES.**

The Telecrib® Junior™ is the all-in-one tool you need to efficiently stabilize a vehicle in preparation for patient extrication.

First Responders know that successful extrication starts with proper vehicle stabilization. Compact yet strong, the Telecrib® Junior™ comes with everything you'll need to quickly and safely perform basic stabilization. Its unique and versatile design combines stabilization with lifting for an all-in-one strut that's lightweight and easy to use. With a 5,000 lb. working load, you can't go wrong with this strut.

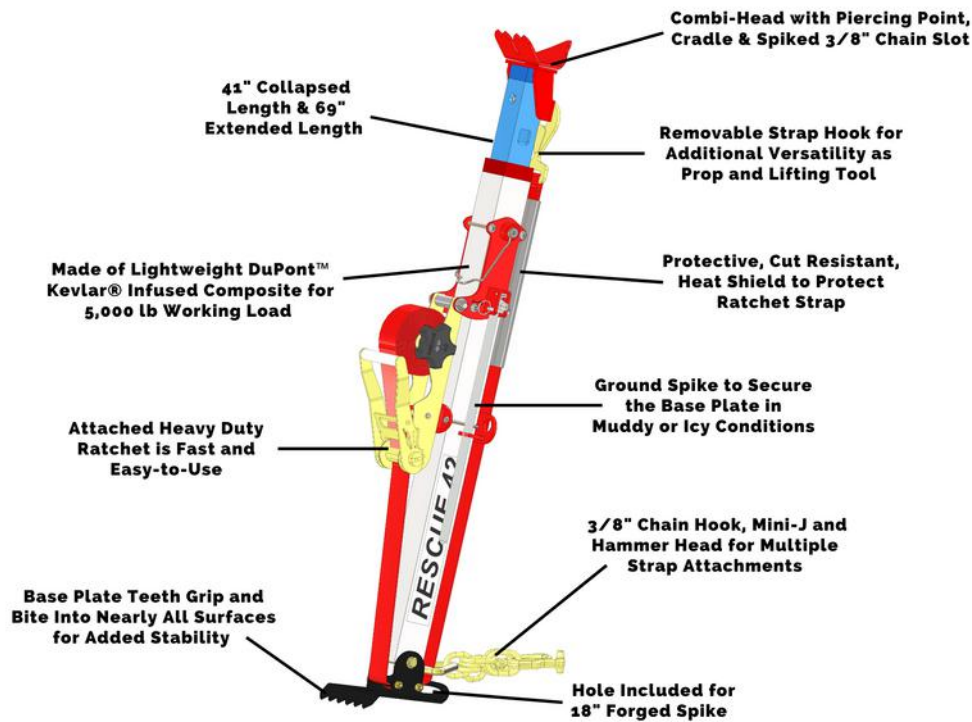

Saving lives means having the right tool. Rescue 42 tools are trusted by thousands of Departments, and designed for First Responders by a First Responder.
