TIME TO GO COMPOSITE

Since the debut of the Advanced Composite version of the TeleCrib® Stabilization System, we've received numerous requests from customers to upgrade their steel struts to composite. For a limited time, Rescue 42 will be offering customers the opportunity to upgrade their strut systems to the new Advanced Kevlar® Composite TeleCrib Stabilization System.

To take advantage of this promotion, please familiarize yourself with the details of the program, complete the form on the back of this sheet and return it with a purchase order for a strut kit.

Please contact the sales team if you have any questions

ACCEPTED

- Rescue 42, Steel Telecrib®
- Res-Q-Jack®
- Junkyard Dog™
- Hurst® Warthog® or Quik-Strut®
- Airshore® Art-Lite®

NOT ACCEPTED

- PARATECH® (FULL SIZE)
- AIRSHORE® (FULL SIZE)
- GENESIS®, KODIAK®, OR GRIZZLY®
- ZMAG®

All upgrades will be evaluated on a case-by-case basis and are subject to approval by Rescue 42, Inc.

- Dealer must take possession of the struts being used for credit including all tubing, pins, base and head attachments
- Upgrade credit may only be applied towards the purchase of a new Rescue 42 Composite TeleCrib Kits
- Upgrades may only be applied to a kit of equal or greater size as the one surrendered and is not available to or from tripod kits.
- Valid only within the United States and Canada.

Trade in Value

Authorized Rescue 42 TeleCrib distributors will purchase desired kit at regular dealer pricing and receive a \$125 per unit credit.

Participating dealers will match the Rescue 42 \$125 credit to customer.

To their customer per complete strut assembly surrendered: Customer will receive a \$250 credit.

Example:

Three strut assemblies surrendered = customer credit of \$750.

Terms & Conditions

- Dealer must take possession of and certify destruction and disposal of the struts being used for credit including all pins, base, straps and head attachments.
- Individual struts without accessories (specifically pins and all base and head attachments) will not be accepted for credit.
- Upgrade credit may only be applied towards the purchase of the following Rescue 42 TeleCrib Kits: CTC-6001,6002,6003,6004,6005,6006, 1000, 1002.
- Upgrades may only be applied to a kit of equal or greater size as the one surrendered.
- The Strut Surrender Confirmation Form must accompany an official purchase order from an authorized Rescue 42 TeleCrib Strut distributor.
- This offer is valid only within the United States and Canada.
- All upgrades will be evaluated on a case-by-case basis and are subject to approval by Rescue 42, Inc.

Tube Upgrade for TeleCrib® Customers

Order #	Description	List Price	DLR Price

CTC-6005UP	G2-G3 Engine Kit Upgrade: 4 short, 4 long, 3 spike feet, 8 straps, 2 lg bags	\$ 3739.00	\$ 2991.20

This program is intended for customers who purchased their TeleCrib composite struts before October 2007, but can be extended to any customer outside of our 5 year warranty. Customers would keep their steel parts (heads, baseplates, hook clusters, cinch rings) and all pins (yellow composite and steel base), however they would receive new spike feet with their upgrade parts (Gen 3 red tubes are slightly longer than Gen 2).

The picture at right shows the labeling difference between Generation 2 and Generation 3 composite. Generation 3 Kevlar composite struts have the Rescue 42 helmet on the label and say "TeleCrib Kevlar Reinforced Composite Stabilization System"

Strut Surrender Confirmation Form

THIS FORM MUST BE COMPLETED AND ACCOMPANY YOUR PURCHASE ORDER TO TAKE ADVANTAGE OF THE COMPOSITE UPGRADE PROGRAM.
