

The Strut Jack

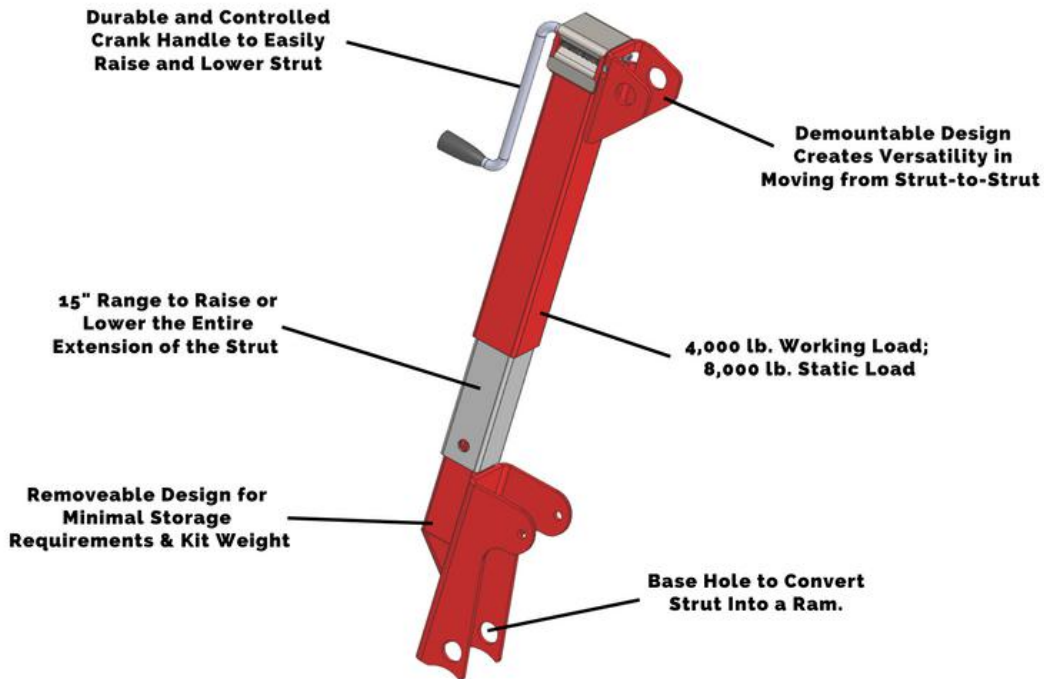

***DESIGNED
TO HELP
YOU SAVE
LIVES.***

The Telecrib® Strut Jack is the tool you need to efficiently lift and lower a load during vehicle extrication.

First Responders know that extrication can often require lifting the vehicle in addition to stabilizing. Removable yet strong, the Telecrib® Strut Jack fits over the strut body to give you the control needed to access the victim quickly and safely. Because its removable, this unique jack is incredibly versatile moving from strut to strut as needed, and minimizing storage capacity.

Saving lives means having the right tool. Rescue 42 tools are trusted by thousands of Departments, and designed for First Responders by a First Responder.

THE STRUT JACK

Because lifting matters.

➔ Removable design allows the jack to move from strut-to-strut if needed, minimizing storage requirements.

➔ Durable crank handle gives you easy and controlled lifting and lowering of the load. 4,000 lb working load.

➔ Compact for easy storage with a 15" range yet can raise and lower the entire extension of the long strut.

Watch. Buy. Save Lives.
